# 2.5" SATA SSD

## 2IE series

- iSLC technology
- Perfect replacement for traditional hard disk
- iSMART disk health monitoring
- Intelligent error recovery system
- Excellent data transfer speed
- Enhanced power cycling management

### Introduction

iSLC [2IE series], designed to outdo the endurance, performance and reliability of MLC-based solutions. Through the use of flash management algorithms, iSLC improves SSD endurance up to 30,000 times, increasing lifespans up to 10 times longer than MLC-based solutions. In addition, iSLC improves the performance of solid state drives, with similar write performance of SLC-based solutions, and with data quality that is on par with SLC technologies. The InnoDisk iSLC series is cost efficient, boasting excellent benefits at only half the price of SLC-based solutions.
